### WESTWARD LOOK, THE SKY IS BRIGHT

Cheer up, friends! There is something to fight for and look forward to, after all. Influential business people are thinking about post-war problems and thinking progressively.

Admittedly, many statements from our business executives are discouraging. Admittedly, many of the business men to whom we must look to shape the new economic world, if it is to be shaped within the present political and social framework, are lacking in vision and are clinging to discredited ideas.

For instance, advertisements by big corporations in U.S. magazines frequently say that we are fighting for the system of "free enterprise" or for "the American way" (of doing business). But of course we are not fighting for these things. We are heartily sick of the "American way" and the unemployment and suffering that have gone with "free enterprise" of the past.

We are fighting for a new world, a better world, in which common-sense economics will prevail. We are not fighting for the right of individuals to grow rich but for the right of individuals to live and enjoy themselves and make the most of themselves. We are fighting for a world in which most of the people will work such part of the time as is necessary to assure all a progressive standard of living, and for a world in which the products of that toil will be shared, as between nations and races (that is hard to acknowledge, but it must be acknowledged, and be acted upon), and as between the citizens of each country, in an equitable way.

Now, in our opinion, the only way to make such progress is to get away from emotional, partisan and habitual thinking. Business men, the architects and the builders of our economic world, must give up such colored, vague and meaningless terms as "free enterprise." They must deal with specific ideas. They must not be afraid of some device or practice or idea because Russia has used

it, and it is therefore "communism," or because the Scandinavian countries have used it, and it is therefore socialism. They must examine each idea on its merits, and they must get away from the idea that anything that Russia does, or that the British Labor party or the Canadian C.C.F. advocates must be wrong, because people who belong to a "radical" party must be "quacks."

Now we have before us just such a clear-thinking analysis of our pre-war world, a study which seems to be made without prejudice and without fear and certainly without the use of such meaningless terms as "free enterprise."

We are delighted that it comes from business people. We suspect that it is the work of a professional economist, for it picks up the "trade-cycle" economics which our universities taught so glibly before the great depression, suggests the flaws in the old theories, and goes on with new practical ideas for the control of employment.

Lever Bros. and Unilever Limited, apparently in Britain, made this study of world economic problems. (We are now convinced that cleanliness is next to godliness.)

Here are a couple of ideas from a study that abounds in ideas, sane, constructive suggestions for making the economic system work. "Profit or loss gives a clear indication of what people want to buy, and provides a check on the efficiency of its production," but "the profit motive has proved an insufficient guide in the extension of productive capacity." "The main task in fostering the regularity of capital investment lies with the government." The government by control of interest rates, restriction of credit, monetary and budgetary policy can influence costs and prices, checking or encouraging capital expansion, retarding depression or boom.

A part of this control plan is the familiar Scandinavian practice of government collecting a surplus in good times and reducing taxation and spending the surplus in bad times.

It is as important to avoid a boom as a depression. During demobilization boom conditions should be restrained. "The temptations of fuller employment and quicker reconstruction will be great, but unless a wise restraint is applied the illusion that the unemployment problem is solved will in a few years have to be paid for by a major crisis."

In other words, government, according to this analysis, must play a bigger, not a lesser part, in the regulation of business. "No return to pre-war conditions will be possible," either nationally or internationally. "No human happiness or social security in any country can be based in the long run on protective methods which disregard the happiness and security of other countries or serve to continue inefficient and non-progressive ways of production."

Here idealism and realism walk hand in hand: a Christian world based on clear thinking and "sound business principles."

## RATION COUPON BANKING

Beginning March 1st, the 3,200 branches of the Chartered Banks of Canada, undertake another wartime service, namely Ration Coupon Banking. It is a vital part of the nation-wide rationing program.

### Facts You Should Know

- If you are a merchant, jobber, wholesaler or other dealer receiving ration coupons from your customers, your bank stands ready to show you how to deposit or otherwise deal with the coupons you receive. The same applies if you are a "quota-user."
- It has nothing whatever to do with your regular bank account, in which you deposit dollars and draw cheques in dollars.
- It is purely a relationship between dealers and commercial banks. Ration Banking begins only after the consumer has used his coupons to purchase rationed commodities.
- The banks' job is mainly of an accounting nature—acting as an agent of the Ration Administration, Wartime Prices and Trade Board, under carefully defined regulations.
- Ration Coupon Banking relieves the Ration Administration of the tremendous burden of handling, verifying and accounting for used coupons with which consumers have obtained their supplies.
- If you are a consumer only, it in no way affects how much or how little of rationed commodities you receive. Banks do not issue ration coupons, nor do they have anything to do with the actual rationing of commodities.

By this important addition to the many wartime services they perform, the Chartered Banks serve the nation, facilitate business, and seek to save time and expense to the country.

Our Prisoners of War!

BARBED WIRE and enemy guards "do not a prison make" for Canadian soldiers captured by the enemy. Their thoughts, winging across the sea, meet Red Cross parcels on their way to them.

Last year, the enemy said "pass" to 2,000,000 such parcels. They were packed with 22,000,000 pounds of food and comforts welcomed by men to whom the barest necessities have become luxuries.

But, most of all, to each prisoner every Red Cross parcel is a message from home—a definite assurance that he is not forgotten, a reminder that no captured Canadian soldier is ever marked "off strength" by the Red Cross.

Thirty percent of the money you gave to the Red Cross last year was used to provide parcels for prisoners of war. The money you give now will help to keep up and increase this flow of good cheer and hope to these lonely men.

A recent Proclamation, issued by His Excellency the Governor General in Council, provides that certain single men must register immediately for the Military Call-up under National Selective Service Regulations.

Single men who must now register are those who were born in any year from 1902 to 1923 inclusive, and who did not previously undergo medical examination under the Military Call-up.

Men actually in the Armed Services are exempt under this order, but men discharged from the Services, not previously medically examined under the Military Call-up, must now register.

"Single Men," referred to, now required to register include any man—

born in any one of the years mentioned, who has not previously been medically examined for the military call-up, and described as follows:—"who was on the 15th day of July, 1940, unmarried or a widower without child or children or has since the said day been divorced or judicially separated or become a widower without child or children."

It is pointed out that any man unmarried at July 15th, 1940, even if married since that date, is still classed as a "single man."

Registration is to be made on forms available with Postmasters, National Selective Service Offices, or Registrars of Mobilization Boards.

Penalties are provided for failure to register

## Gathering the Sport Facts

George Case, the fast travelling outfielder of the Washington Senators, stole 44 bases last season and thus qualified as the speediest man in the majors. The whole Pittsburgh Pirate team managed to pilfer only 41. In 1915 Ty Cobb stole 96 for a modern league record. In making his 44 successful thefts Case was thrown out only six times. Cobb was caught in attempts 38 times. Figuring it out on a percentage basis, Case is ahead, although he didn't steal as many. Max Carey, a former outfielder with the Brooklyn Dodgers, stands above them all. He was successful in 51 out of 53 attempts in 1922.

Quite a number of years ago a fellow named Johnny Sullivan fought in and around New York city. Well, Johnny wasn't much of a fighter. He was knocked out two or three times, and suffered quite a few reverses. Then he got wise to himself. Thought perhaps he had better try another business. So he went into radio. Today he is one of the top-flight entertainers on the radio. His name—Fred Allen.

Quite a few people think Joe Di Maggio is the highest-priced player in baseball. On the basis of what he did last year Tom Carey of Boston is. His salary for the 1942 season was \$5,000. To receive this, all Carey had to do was play second base in part of one game. He batted only once and got a hit. He fielded only one ball. This made both his averages .1000.

Did you know that hockey is the first sport to place numbers on the sweaters to identify the players? Weight lifting is the national sport of the Egyptians.

Sonja Heine's ice show playing before 692,427 people in giving 47 performances in five cities. The gross gate was \$1,229,784. Eleven world records were broken last year by that great Swedish runner, Gunnar Haag.

Around Our Town

This week the local picture is much clearer. Tonight the Redmen take on Brampton camp in the second game of their two-goal, total goals to count, series for the right to meet either Orillia or Midland in the finals.

Tuesday night's game, which was played in Georgetown, re-

sulted in a 2-2 deadlock. This tie score should make Thursday's game a battle. This was the first game the Redmen had played since Angus "Bombers" were here on Feb. 11. The local team have another new player. Last week they announced the acquisition of Sandell, a centre man from Collingwood. This week it's a brother of Tommy Stewart, right winger on the camp team. This fellow looks just as good as Tommy. He should prove of help to the club.

With the Army Daggers eliminated from the senior O.H.A. anything might happen in the group. Newmarket is supposed to be the farm club of the "Daggers," but there is no reason why any of the other play-off contenders shouldn't strengthen by using some of their men. Brampton already have three or four new men.

The Redmen had better not take the play-offs too lightly, even though they did finish the group without a loss. Some of the other clubs may give them a tussle before a group winner is decided.

The Newmarket juvenile team played two games last week. They journeyed to Sutton on Thursday night and came home with an 8-7 victory. The Sutton team had just been eliminated from the Ontario Juvenile Hockey Association play-offs. On their showing away from home the local lads must have a team worth shouting about. The team has been organized only a week or two and has no sponsor. The boys really deserve credit for their hard work.

Aurora came to town on Tuesday night and engaged in a friendly game with the boys. Newmarket took another 8-7 decision. Penalties beat them out of getting a higher score.

Cliff Gunn is the coach of the team. It really is too bad they did not organize earlier, so they could go into the Ontario play-offs. Friday night they go to Aurora to play. Here is their line-up: goal, Palmateer; defence, Geo. Chandler and Murray Jelley; centre, Don Smith; right wing, Bob Smith; left wing, Elphinstone; subs., Barney Bishop, "Red" Anderson, Bob MacInnis, Ken Groves and Bill Hopper.

Rev. G. H. Johnson performed the ceremony. Mrs. Albert Ridley played the wedding music. The bride, given in marriage by her father, wore an olive green crepe dress with black turban and carried a bouquet of cream roses, buddleia and shamrock. Miss Florence Tucker was bridesmaid. She wore a turquoise blue crepe dress and blue hat and carried a bouquet of pink roses and buddleia. Pte. John Tate, Simcoe, was best man and Roy Harper was usher.

The young couple left immediately after the ceremony for Toronto and Kirkland Lake, the bride donning a green coat with silver fox fur.

# Always Runs Out Of Bullets, Squadron Leader Relates In Public School Quiz

As his last official act before returning overseas Squadron Leader Lloyd W. Chadburn, D.F.C., appeared on Thursday afternoon at Aurora public school to say "au revoir" to his old school and receive a gift from the Aurora public school board.

Principal John G. McDonald was chairman and seated at the front of the 200 pupils were public school Chairman Dr. C. J. Devins, Trustees Ed. Warren, Mr. and Mrs. Frank Allen, Mayor Frank Underhill, Major W. H. Taylor, Rev. A. R. Park and Canon F. J. Rife.

"It is not so long ago that a fair-haired boy just as good and just as hard as you entered the school," Principal McDonald recalled. "Ten years ago he left the school. Today he is one of Canada's best known airmen. From among you may come others who will bring as much honor to the school and the country."

On behalf of the school board he presented Squadron Leader Chadburn with a handsome shagreened leather-bound scrapbook.

With calm and ease the 23-year-old air hero faced a barrage of questions from the cheering youngsters.

Q: Have you seen any old German roads? Are they still in use?

A: Only from the air. They are straight as a die and make great landing fields from the air. They were well built and many of them are still going strong.

Q: What prompted you to join the R.C.A.F.?

A: I had no particular inspiration. It seemed the best thing to do at the time.

Q: What do airmen think on their way to bomb Germany?

A: They think mostly of the way over that they may get back.

Q: Have you ever been shot down or baled out?

A: Definitely no.

Q: How does it feel under fire?

A: Frightening is the best way to describe it. It is not pleasant to see tracer bullets going by. If you are returning fire you feel much better.

Q: What was your greatest thrill?

A: Each time is an experience in itself. They are all thrilling.

Q: How many planes in a squadron?

A: There are 16 initial planes and two in reserve. Twelve at a time go out together. There are 23 pilots plus four pilots still receiving training. If we lose a man, he is replaced by one of the newcomers, and another new pilot comes to us. The ground crew numbers about 200.

Q: What is the life and climate of England like?

A: The south of England is much the same as Canada in the summer. In winter there is almost constant fog. One thing you notice about the cities is the amount of smoke. You can't see the distances on the ground you can here. Life despite all kinds of hardships seems to go on as usual.

Q: How long does a dog-fight last?

A: As short as possible. You're probably frightened and want to get it over as soon as possible.

Q: Tell us about your experience when you saw the King.

A: After several preliminary communications you get a date to go to the palace. When you get there you are placed with others of your own service, and get instructions what to do. A hook is pinned on your uniform as a mark for His Majesty. You stand on a certain spot, not to tire the king. The day I saw the king he wore the uniform of an admiral of the fleet. He generally wears the clothes of the senior service. He is very friendly and asks you natural questions. Surrounding him are many of the big officials. You are glad to get it over with and push on.

Q: Have you bombed Cologne?

A: No. My operations have been confined to northern France, Belgium and Holland. The range of our Spitfires is short. Operational flights take no more than two hours.

Q: When in a power-dive do you experience a black-out?

A: Actual flying is not like you see in the movies. You get a black-out on banking, sharp turns and other ways. It lasts about 20 seconds, for six or seven of which you don't hear a thing.

Q: Does a nervous pilot make a good fighter?

A: That generally takes care of itself. He doesn't get that far as a rule.

Q: How are the people of England taking things?

A: Better than the folks over here. Rationing is much harder, as is life in general.

Q: Have you ever seen a Nazi plane go down in flames?

A: Yes, several. It is a very sickening sound to hear a plane come down out of control or on fire.

Q: What is the fastest plane?

A: The Spitfire. Over here you hear a lot about the Mosquito plane. It is quite a good machine but the Spitfires can generally overtake them.

Q: What weapons are in a plane?

A: Generally eight machine-guns in Spitfires. My plane has six cannon and four machine-guns.

Q: Do you ever run out of ammunition?

A: I always do.

Q: How many planes has your squadron shot down?

A: Well, of course, I haven't the latest total, and I hope there are more now, but I think we have nabbed over 20. We got four Germans at Dieppe.

Q: Are there such things as Gremlins?

A: Definitely. They're with you all the time. All fliers think so. You can see them but know they're there.

At the conclusion of proceedings the flier asked for and obtained the balance of the afternoon as a holiday for the pupils.

"There are some jolly good fishing spots up the railway tracks," he reminisced. "They should be ready in a few weeks. Wouldn't be surprised if some of the boys played hockey."

## Big Names Crush All-Stars, Brilliant Despite Depot Skill

Adding Harry Dick of Army Dappers and Cleveland Barons, "Buck" Davies of Montreal Royals and Doug Adams of Hershey to their line-up, Ordnance depot crushed a game, winning Aurora town league all-star team 11-2 on Tuesday night.

The Aurora boys were in the pink of condition and, while not playing together as a unit all season, had too much power for Alex Ferguson's boys.

It is doubtful if there is an intermediate squad which could stop Depot. For the first period the all-stars held their own. Will White, playing the best hockey of his career, doing the honors for the depot.

On this session Saigle turned back shot after shot. When his defense wilted in front of him under a professional barrage, seven pucks went by the lanky net-minder in the second period. Shropshire got one goal for Aurora. The last period saw three more military scores and one by

### WITH THE CHURCHES

Members of Trinity Anglican church have been requested by the church wardens to contribute to the church's fund for soldiers' boxes. One hundred dollars is needed to carry on the work.

Church membership classes started last Monday at Aurora United church for those who will join the church in a few weeks. Rev. Roy Hicks is in charge.

The junior and intermediate boys of the Aurora United church Sunday-school held a supper and program of games in the church parlors last night. About 60 attended. Teachers of the classes are Miss Barbara Gilbert, George King, R. T. Caldwell, Ross Linton, and the mother's committee in charge of arrangements consisted of Mrs. H. C. Summers, Mrs. Ross Linton and Mrs. J. L. Urquhart.

Mrs. P. M. Thompson and Mrs. H. A. F. Bowman are the new heads of the mission band of Aurora United church. Mrs. Roy Fletcher is the new director of the baby band.

The Co-operative Women's Guild met last night at the home of Mrs. Herbert Lewis. A collection for the Aid to Russia fund was received.

### FORMER RESIDENT DIES

The death occurred at Markham on Feb. 17 of a well-known former Aurora resident, Eleazar ("Neb") Frisby.

Mr. Frisby, who was born in Markham township, conducted a lively stable in Aurora from the early 90's into the present century. He is survived by one daughter, Marie, of Toronto. Interment was at Victoria Square.

### ATTEND FLOWER MEETINGS

Mrs. John Klees attended the Ontario Horticultural Association meetings in Toronto on Thursday and Friday of last week. Percy Bone of Thornhill, well-known North York horticulturist, was presented with a merit award by the society.

### SURPRISE W. J. KNOWLES ON 83RD BIRTHDAY

A number of Aurora friends tendered a surprise birthday party last week in honor of W. J. Knowles on his 83rd birthday. Songs and recitations were given by Alfred Williamson. Mrs. Charles Dunham assisted in the arrangements for the party.

## DOWN THE CENTRE

"Tiny" Teasdale, the former Aurora-Newmarket junior and for a few years one of the best ice hockey players in the province, is back in the game, having been back in the game for a few weeks ago which floored him longer than any he ever received. Graham, who is with Curtis Aircraft at Buffalo, was returning from work when, owing to icy streets, his car was struck by a trolley, sending him to hospital for a couple of weeks. Fortunately no bones were broken. Hopes to be back in action as a linesman for the professional play-offs and to see his junior hockey team capture honors in the Buffalo City league. Takes more than a street-car to stop the Babe.

Bruce Stephens, left-winger the past two years for Aurora juniors, left his home at Richvale on Monday for duty with the R.C.A.F. Knowing he was soon to see some action, Bruce turned down several fine junior offers this year and played blue-league hockey in the Richmond Hill league with Carrville. He was among the top players too. A brainy, battling player, Bruce's only handicap was that he was a stiff skater and his body always seemed tensed. He turned in some fine efforts, however. He was a potent basketball player, and a senior track champion at Richmond Hill high. His biggest thrill was to get a shotgun and go after rabbits or foxes. Last year he collected the bounty on four foxes.

Queen's York Rangers hockey-ists of the Niagara City loop, coached by C.S.A. Hawick, have reached the finals. They are now playing a best of five series, and at the weekend were down one game, the score being 5-1 against the Yorks in the opening clash.

Trooper Harry Armstrong of Thornhill reached the semi-finals of the Canadian army overseas middleweight class in England last week. An injury kept him out of further action.

Bill Hatfield, the Aurora boy who has won honors in the square ring on more than one occasion overseas, did not compete this year. "Getting too old," says Bill. He can well rest on his laurels at that. For in the overseas finals he "dood it" on several occasions.

Doug May, the Newmarket boy who played both for the intermediate Redmen and Sutton and later for Camp Borden, has been performing overseas this winter for the 48th Highlanders team. A Toronto paper carried a picture of the squad not so long ago, and May looked to be in the pink. While never sensational, he was a useful lad to have on hand and could look after himself pretty well.

"Joint" McComb wound up the regular mercantile season tied for scoring honors in the West Toronto league. "Joint" led practically all the way but failed to score in the final game or even get an assist, which enabled his linemate, Gordon DeLaat, former Varsity and Georgetown player, to break into the eventful playoffs.

The teams are now in the play-offs but whether or not points scored there will settle the issue has not been decided. Eugene, who is still erroneously called "Bob" or "Bill" by Toronto sports writers, has enjoyed one of his best seasons and kept clear of injuries.

Bob Abel of Ringwood, who was a member of the first hardball team at Newmarket camp and also played a bit of hockey, arrived overseas recently.

Unionville Juveniles, who are cutting quite a dash this season, are not as you might suppose from the Markham township village. The whole squad hails from Toronto and are sponsored by a city haberdasher. Only the name of the team savors of North York. A fan from Richmond Hill dropped us a line last week to suggest that the powers that be in the sporting world of North York get together before the season is over and organize midget, minor midget, and juvenile hockey on a district scale for next winter. He points out that the Hill have two midget teams, and could easily have a juvenile one too. There is juvenile and midget hockey at Markham, and organized juvenile hockey at Sutton. Aurora have a ready-made midget team in the public school league. It is an interesting side-light on the Aurora scene that a juvenile team is readying itself for some action.

Cliff Gunn, the former Newmarket junior, has gathered together a juvenile team at Newmarket, which he says is "better than good." So the stage equipment is ready if only someone will set up the scenario. Might yet be possible to arrange for some fast knock-out playoffs for the whole district. The fan, who wishes to remain undisclosed, believes that backing is possible for all the teams and points to the Lions club at the Hill and Newmarket, and the Aurora board of trade as good possibilities. We will be glad to do our part to set the ball rolling as much as we can, and if you have any ideas on the subject, let's hear them. Better still than now, and even if it doesn't materialize now, the league could be ready for next season. Come the snows of next winter there may not be much hockey material other than the kids on hand, so that a heavy dose of keep sport alive in North York rests on the shoulders of those left on the home front. Our boys in the armed forces are depending on sport being carried on while they are away and there is a duty to give the kids of today, tomorrow's fighting men, the chance to learn good clean sport. For too long the kids of North York have been passed up by their elders. Let's make it a new deal. Eddie Michanuk, brother of Aurora's Frank Michanuk, is carrying on the hockey tradition of the family with Unionville juveniles this year, while older brother Frank serves with the R.C.A.F. The kids, like Barkis, are willing. All they need is a bit of leadership. The churches have a big opportunity right there for recreation among their young people.

Angus Bombers passed out the intermediate picture last week but not before they won the respect of all comers. With their backs to the wall, they trimmed Brampton 5-2 in the final league game and on Thursday night at Midland lost out in overtime to Orillia campers. According to those who saw the game, it might just as easily have been the other way. If the Bombers had been as good all season as they were in those two games, Cpl. Howard Leonard and his boys would not have needed a play-off. Two games were lost on pure player shortage.

Jack Gaudin, son of the famous sculler of that name and better known for his rugby exploits with Hamilton Tigers, Argos and the Argos, was pressed into service for both games. According to those who saw the game, it might just as easily have been the other way. If the Bombers had been as good all season as they were in those two games, Cpl. Howard Leonard and his boys would not have needed a play-off. Two games were lost on pure player shortage.

George Aykroyd, who played for Angus last year, was in the nets for the Bombers and did a grand job. He formerly played for Flinton in the Manitoba senior circuit. Montemurro, who handled the net assignment all winter because Aykroyd was away on a course, was a bit weak in allowing too many rebounds but otherwise looked good.

Midland, by virtue of a brilliant 7-3 win over Brampton, took second place in the group and missed the Newmarket menace for one round at least, although Lieut. Mike Craig's amazing and untidy defensible Orillia team may furnish a surprise.

Jack O'Brien, formerly of Gravenhurst, has made the Shipbuilders dangerous and since their Newmarket games they have added Hunter of Gravenhurst and Dugan, a junior, while Dick St. Amant has improved 100 per cent since early season. Lost from the team were "Buck" Abbott, Valentine and Kiseok to Penetang juniors, but the Rangers are put out by Barrie, as appears certain now, they will likely be in action with the intermediates. Midland will certainly have to be reckoned with when the group final comes round. Brampton camp, with Joe Lannarelli, South Porcupine, Teddy Lister of St. Catharines, Lent of Army Seconds, Burkhardt, ex-Toronto Marlboros, and Frankie MacFarlane of Hamilton, are the team, present different picture from the team that was overwhelmed by Newmarket earlier. Holding Lannarelli and Lister will be the big job for Sgt. McDonald's boys. If Brampton can bottle up Bob Bangay they stand a fair chance to come through. Newmarket have been idle for two weeks and have added Bobbie Sandell of Collingwood to their team. Lieut. Mike Craig's amazing and untidy defensible Orillia team may furnish a surprise.

A number of Aurorans including Lieut.-Col. and Mrs. Thos. Dann, Dr. and Mrs. Crawford Rose and Major and Mrs. C. R. Boulding attended Dramatic Night at St. Andrew's college on Saturday.

Two short plays, "Gassed" and "Course You Jack Dalton" were excellently performed by the boys of the school.

Miss Adele Duffin of Toronto spent the weekend with her parents, Mr. and Mrs. Thos. Duffin.

Mr. and Mrs. J. H. Sloan, Toronto, were in town on Monday calling on friends.

Miss Betty Ennis of Orillia spent the weekend with her sister, Mrs. Thos. Ennis.

Cpl. and Mrs. Ben Ennis, formerly of Newmarket, home of a furlough from Port Alberni, B.C., spent the weekend with Mr. and Mrs. Thos. Ennis.

Mrs. A. Grives is visiting her son-in-law and daughter, Mr. and Mrs. George Hacking, Cobourg.

sergeant. Of those Rowntree, Bill Thornton, Bill Robb, Kevin Shore, Bill Wilson, Jack Cowles, Bill Hoskinson, Ken Brown, Al. McGhee, Hugh Main, Percy Myers, "Andy" Anderson, Clayd, Doolittle, Alf. Hardson and "Turk" Ferguson are on service. We do not know what has become of the flashy Bill Jones while others have been turned down because of poor health.

Mike Thompson, one of Newmarket high's better all round athletes in recent years, joined the R.C.A.F. this week. Thompson pitched for C. Coy. in the intermediate league at Niagara camp last summer and was also prominent in track and field.

Don Brown, who won the all-round track championship for the Yorks at the camp field meet last year and another former Newmarket high school star, went on active service too just prior to Christmas.

Harry Davis, of this year's Aces and former St. Andrew's college hockeyist and boxing champion, has signed on for a hitch with the navy, and while awaiting his call is engaged on war work.

Clarke Hill, manager of the newly-formed Newmarket juvenile club, left with Myles Macfarlane this week for the R.C.A.F. Hill was highly thought of by the players.

Angus, who edged out Sutton 8-7 in last week's game, were confident of taking Aurora, Barrie and other juvenile outfits.

Redmen juveniles included in their line-up John Palmater in goal, Harold Tunstead, George Chantler, Bill Hopper and Gene Burrows on defence, with Don Smith, Bob Smith and Bill Anderson as a first-string line, and Vern Thompson, Gord. Pearson, Bob Macfarlane, Ken Groves, Murray Macfarlane, and Jack Jack.

Groves and Amies completing the team. The boys have worked out hard in whatever hours they could get at Stan. Smith's ice palace and show promise for the future. Bob Smith banged home four counters at Sutton.

There is quite a bit of hockey history scattered through that list. Don Smith is the son of Stan Smith, for years a canal-town net-minder. And Jack Jack, executive Vern Thompson is the son of Fred Thompson, a classy defence-man in his day. The Groves brothers are minor editions of "Chingher" Groves, who played goal once for Aurora juniors, Murray Jelley is the younger brother of Bill Jelley, who a few years ago was headlining for Newmarket juniors.

Harry Laurer, who in 1926-27 electrified Newmarket fans with his fine play in the finals for Owen Sound juniors as they downed a good Redman team in the O.H.A. finals, including Bill and Charlie Thoms, Amies and Marshall, is still playing hockey. Marty turned pro and for a number of years alternated between big-time and the minors. Now he is a star of the St. Thomas R.C.A.F. Hornets, who are battling it out in the intermediate series against London army right now. Bill Thoms is the only one of the Redmen team of that day still doing active ice duty.

Victory, former Moncton and Sydney goal-keeper, who is employed on important war work at Deloro, has come out of retirement to aid Belleville and he has made a big difference to the team.

# \$7,500 OBJECTIVE NEW MARKET

HAS BEEN SET FOR NEWMARKET AND DISTRICT

## Red Cross Work In Newmarket Depends On Newmarket Money

Newmarket District Increases Volume Of Work As Needs Increase On Widespread World Fronts

The national appeal of the Canadian Red Cross Society is for \$10,000,000 and the objective of the Ontario division for the Dominion-wide campaign has been set at \$5,000,000, which is one half of the total objective. The campaign will extend over a three-week period, commencing Mar. 1, and all districts are asked to exceed their quota.

The Newmarket and district quota is \$7,500.

The sum of \$5,500,000 is needed for Canadian and British prisoners of war food parcels, which the society now packs at the rate of 100,000 weekly at a cost of \$2.50 each. Packing plants are now operating in Toronto, Montreal, Windsor, Hamilton and Winnipeg, each producing 20,000 prisoner of war food parcels weekly.

A new daily prayer has been written for empire prisoners of war by the Dean of York, Very Rev. E. Milner White: "Look, O Lord God, with the eyes of Thy mercy upon all prisoners of war (especially those known and beloved by us), preserve them in bodily health and cheerful undaunted spirit; convey Thou to them the support of our love on the wings of Thine own; and hasten the day of release; through Him who hath made us free eternally, Thy Son, Our Saviour Jesus Christ."

The Red Cross needs money for the purchase of material from which over 1,000,000 volunteer Canadian workers make comforts for men in the armed forces and clothes for civilian war victims in Britain and the Allied nations. Money is also urgently needed for the cost of hospital and many other types of supplies and services in Canada and overseas.

In 54 communities in Canada the Red Cross corps of trained uniformed women are active. The corps is sponsoring enrolment of some 10,000 women in the emergency nursing reserve. The Newmarket branch of the Red Cross is sponsoring an emergency nursing reserve course with an enrolment of 130.

Since the New Year the Newmarket branch has shipped the following: 30 box linings for surgical dressings, 15 quilts, 28 sheets, 24 pads, five baby jackets, five baby blankets, five girls' units (two blouses and one skirt), ten boys' shirts, five mothers' nightgowns, one large crib blanket, one woollen dress, one pr. woollen mitts, 123 baby articles.

The group from Vivian brought in a number of knitted articles and four large and three small quilts which have not been shipped.

Yonge St. sewing circle has given the Red Cross \$36.

A quota of new work has been received and workers are needed.

CAMPAIGN CHAIRMAN

The man on whose wide shoulders has fallen the chairmanship of this new, big campaign is H. E. Lambert, manager of the Bank of Toronto. The objective of \$7,500 is a 25 percent increase.

## A Message

From The Newmarket Red Cross Branch

We have only to stop and think for a minute . . . of what this war would be like WITHOUT the unselfish service of the Red Cross, to realize that this great work must be doubled, and re-doubled for the sake of all war-torn sufferers, soldiers and civilians alike! What of the bombed and homeless in Britain who MUST have clothing and food, blood serum and medical stores? What of the starving in Greece and China . . . our heroic Russian allies?

What of our own boys in prison camps who wait for food parcels as they wait for deliverance . . . desperately? Our fathers, our husbands and our brothers in the armed forces who get their comfort and cheer from Red Cross gifts. There is only one answer. The battlefield is lengthening. The Red Cross must "step up" its service in ALL departments to meet every appeal! DO NOT HOLD BACK! Give what you INTENDED TO . . . and THEN SOME!

The Canadian Red Cross is doing what YOU would do, if it were possible for you to go by train and boat and plane into those far places where men fight and die and are taken prisoners that we may be safe and unharmed, here in Canada.

But the Red Cross cannot carry on alone. YOU must do your part. Think of it, \$5,500,000 must be spent on food parcels for British and Canadian prisoners of war in Europe . . . \$500,000 for Canadian prisoners in the Far East alone. To keep Blood Donor service functioning 100 percent, \$250,000 must be used this year. Hospital supplies and merchandise for comforts for armed forces and civilians will mean an outlay of an additional \$3,000,000. There are other incidental war expenditures that mean if the Canadian Red Cross is to go on with its HERCULEAN task of meeting all these obligations, \$10,000,000 MUST be given by generous Canadians in the forthcoming campaign.

What if those parcels stopped coming? Quite apart from the hunger element . . . what of morale? Brave lads who have given their freedom to keep us safe must be kept bolstered up . . . assured of their release . . . looking forward to the day when they will be back again with their fellow men . . . kept alive . . . in body AND spirit . . . and Red Cross food parcels do just that for them!

The cause is JUST and WORTHY . . . the need is written in terms of humanity. When the Red Cross calls on you . . . give even MORE than you intended . . . Think what it means to those who WAIT and BELIEVE . . . GIVE GENEROUSLY!

Remember that the Newmarket objective is \$7,500—an increase of 25 percent over the last campaign. Supposing everyone gave one day's income to this cause! Our objective should go over the top the first week.

Your contributions, broken down, look like this:

A contribution of	spread over a year means
\$ 1.	2c per week
5.	10c per week
10.	20c per week

Surely this is no sacrifice on our part.

No canvass will be made in the factories. It is the hope of the committee that everyone can be contacted in his own home. However, if you are missed, please leave your contribution with your employer and same will be handed over to the Red Cross.

### Newmarket Has Two Boys In German Prison Camps—They Rely On Red Cross

Red Cross food parcels arrive at a German prison camp "somewhere in Europe." The Canadian Red Cross has sent more than two million such food parcels to Canadian and British prisoners of war in enemy camps in Germany, occupied France, Italy and Africa since the outbreak of war. Present output is 100,000 each week from five Red Cross packing depots in Canada.

## NOTICE TO CREDITORS

IN THE ESTATE OF SILAS FRANKLIN VERNON, late of the Town of Newmarket in the County of York, Gentleman, Deceased.

Creditors of the above named deceased who died at the Town of Newmarket in the County of York, on the 14th day of January, A.D. 1913, are hereby notified pursuant to The Trustee Act, to send in the undersigned proof of their claims on or before the 31st day of March, A.D. 1913, after which date the assets of the Estate will be distributed having regard only to the claims of which the undersigned will then have notice.

DATED at Newmarket, this 24th day of February, A.D. 1913. Matthews, Silver, Lyons & Vate, Newmarket, Ontario, Solicitors for Victor Franklin Vernon, Administrator.

# WANTED:

365,000,000 dozen eggs . . . one million dozen a day! That's what we Canadian poultry raisers have been asked to turn out this year to help win the war and write the peace.

W. A. Brown, head of the Dominion Poultry Services, says that we might "get by" with 345,000,000 dozen—but asks for 365,000,000 if it is humanly possible. Even the lower figure is 65,000,000 dozen above last year.

Canada needs those eggs early and grown right. Part of the increase has to come from present laying flocks. But another part will have to come from pullets hatched this season.

If birds hatched this season are going to deliver any substantial number of eggs this year, they'll have to be good chicks started early as you can. Don't go by the date you started them in former years . . . go by the date you can get your brooder house ready and your feed and fuel on hand.

Demand is exceptionally heavy for certain breeds. If possible give us a second and third choice on breeds, grade and date wanted. Some started chicks available—first come, first served.
